

Making fully personalized memorials easy

Giving families a tangible way to fully personalize their way of saying goodbye is engraved in our DNA. Families no longer wish for a template funeral. Through continuously innovating, we make that personalization easy.

Personalize each service *with care*

Offering a fully personalized, human service has become increasingly more important. At Funeral by Peleman, we aim to support funeral directors in everything tangible, so they can be the link between families and their memories.

With sublimation printing - or Print-In - we supply the necessary tools to fully personalize a service, independently. The printing technique uses heat to transfer images on metal, creating a durable, scratch-free result to cherish. Think of name or picture plates, photo panels, columbarium plates...
